- 18.05.24 @ THF RADIO BERLIN X AFFAIR ON AIR, DE

Future3 is a nu-jazz trio from Berlin. With their instruments, they express themselves on everyday topics, ranging from high-energy moments to relaxed beats. Their roots lie in classical, electronic music and punk, and their compositions span a broad spectrum of genres while maintaining the distinctive sound of modern jazz. Their forthcoming LP, which will be released in June 2026, offers refuge from all the chaos in the world, without pretending that this chaos doesn't exist.

In 2024, Irina, Rodrigo and Miguel signed with Jazzego Records and released their debut EP Places. To date, the band has performed at several concerts across Europe, including in Germany, Austria, Portugal, Czech Republic and Poland.

"No Slip", their latest single, was released on vinyl in February 2025 as part of the Granito II compilation by Jazzego Records and has garnered international attention on NTS Radio London and Worldwide FM, among others.
